DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 5-8, 11, 18-30, 32-35 and 37 are rejected under 35 U.S.C. 102(e) as being anticipated by Lazaris et al.

There is disclosed in Lazaris an apparatus for forming a beverage, comprising: a housing adapted to support components of a beverage maker; a receptacle 28, having an opening to receive a beverage cartridge 50, movable (pivotable) relative to the housing between a vertical position and an inclined position in which the receptacle is accessible to insert or remove a beverage cartridge; and a lid 40 movable (pivotable in an up and down direction) relative to the housing between open and closed positions, the lid in the closed position cooperating with the receptacle in the vertical position to facilitate formation of a beverage when liquid is provided to the cartridge; wherein in the inclined position, the receptacle opening faces in a direction away from the lid.

Claims 5-17, 21-23, 25-31 and 33-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Mariller et al. '966.

There is disclosed in Mariller an apparatus for forming a beverage, comprising: a housing adapted to support components of a beverage maker; a receptacle 4, having an opening to receive a beverage cartridge (capsule), movable (pivotable), about an axis, relative to the housing between a vertical position and an inclined position in which the receptacle is accessible to insert or remove a beverage cartridge; a lid 3 movable (pivotable), about an axis, relative to the housing between open and closed positions, the lid in the closed position cooperating with the receptacle in the vertical position; wherein in the inclined position, the receptacle opening faces in a direction away from the lid; a handle 8 that is manually movable to cause the receptacle to move between positions and a linkage 9 connected to the receptacle and responsive to movement of the handle.

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
